

Need a professional website, without spending the corporate budget?

Let **SKCPR** design your website and the world becomes your marketplace!

Whether you need 1000 pages or 1, **SKCPR** can design, build and host your website all for a price that fits your budget.

We build *custom sites* that specifically highlight your business. We don't use "cookie cutter" templates like many web designers.

Most of our sites can be designed, built and hosted for MUCH less than the yearly cost of a single phone book ad.

SKCPR is locally owned and operated and will be available to maintain your site once it is built.

Visit www.skcpr.com and click "Portfolio" to view some of our many custom sites.

Complete sites start at under \$500

206 N Race St - Glasgow, KY 42141
